

User Manual

SV96 RGBW 4 in 1 Flashlight

1, Package Content.

- 1 x RGB Flashlight
- 1 x Rechargeable Battery
- 1 x Battery Holder
- 1 x USB Charging Cord

When you receive your package, please check the package content at the first.

(Please remove the transparent plastic insulating film(if exists) covering the positive and negative surfaces of the battery before use.)

2, Install Battery

Please refer to the image above to install the battery.

Battery Polarity: The positive (+) ends of the battery goes at the front (nearest to the bulb), and the negative (-) ends at the back of the torch.

3, How to use

RGBW 4PCS Individual LED

Beam Distance: 100~200M

/328-656 ft

Red

Green

Blue

White

Press the power switch to turn on the flashlight. Continue to press the switch to switch the white light, blue light, green light, red light, flashing red light, and finally off. Long press on the switch in any mode will turn off the flashlight.

Tips:

1. Only red light has strobe mode.
2. There is no function to remember the last setting

4, How to charge the battery

This blue light flashlight is designed with a USB C charging port, it can be inserted into the charging port without regard to the front and back of the plug, which makes charging more convenient and easy.

Powered by an included rechargeable battery, please remove the transparent plastic insulation film from the battery surface before use for the first time.

Battery Polarity:

Battery Polarity when in use: The positive (+) ends of the battery go at the front (nearest to the bulb), and the negative (-) ends at the back of the torch

Charging Indicator

Red: Charging

Green: Fully charged

Charging Time: 3 hours/Batter Life: 1 hours

Charging Requirement: 5V-1A/2A

Tips: When the flashlight battery is too low (the light is dim), it is recommended that you charge it in time to avoid damage to the battery caused by over-discharge.
